NOT A HARD CHOICE

SOFT PRO™

The SoftPro is a state of the art water softener that uses the best innovations and technology to ensure you have soft water, while being energy efficient and environmentally friendly.

The SoftPro uses advanced filtration technology to remove hard minerals and other contaminants from your water. It also has a smart timer that automatically adjusts to your water usage, so you never use more energy than you need.
Plus, it's designed to be easy to use and maintain, so you can always have the softest water possible.
