DISCOVER GREAT TASTING WATER

ATLANTIS™

The Atlantis is a professional grade reverse osmosis system capable of providing up to 50 gallons of high quality water per day. It uses a multi-stage process which includes; a sediment filter, carbon filter, membrane, and inline carbon filter resulting in great tasting and safe drinking water. Treated water is stored in a 1.5 gallon storage tank ensuring you have a volume of treated water even if the power goes out.
